

Volunteer Opportunities

Connecting People of All Ages and Abilities to Build Inclusive Lives

Join Our Team as a Social Media Intern!

We are looking for a high school or college student to join our summer volunteer team as a media intern. This student would take photos and develop story ideas, helping us to craft a social media campaign that we will roll out in the early fall highlighting The Arc Montgomery County's programs.

The ideal candidate will have a battery of skills and interests that include writing, photography, graphic design, editing, and a good sense of what makes a strong social media campaign.

Over the summer, our media intern should expect to invest 15 hours a week for 8-10 weeks. This schedule is flexible and allows some freedom for summer travel and/or other summer activities. Students interested in communications, community engagement, and photography would benefit most from this opportunity. This is an unpaid internship.

Responsibilities:

- Develop an understanding of the mission of The Arc Montgomery County
- Work with our staff to capture photos of our programs in action
- Create content using those photos, including narrative content to support those photos in storytelling across our social media platforms

Requirements:

- Must possess a current driver's license
- Good rapport with people
- Experience with social media
- Strong writing skills
- Good photography skills
- Some graphic design skills (Photoshop and InDesign)
- Above all, must be enthusiastic, creative, and collaborative.

To apply, please send a cover letter, résumé, and sample(s) of your work by email to Ann Stephenson, AnnS@arcmontmd.org.

*The candidate selected for this internship will be required to complete our full volunteer application process, including background check, and to attend a one-hour volunteer orientation before beginning.
